Dear Submitter:

This letter acknowledges receipt of your **Premanufacture Notice (PMN)** form under Section 5(a) of the Toxic Substances Control Act (TSCA) for TS# **13OC01** with Report Number **OCEX130827355035427**. The *ninety (90)-day review period* will begin on **8/27/2013**.

Your submission has been assigned case number(s) **P-13-0858**. If your PMN is consolidated, case numbers are assigned to chemicals in the order in which they are listed in the notice. For example, a notice that lists chemical A followed by chemical B, will be assigned successive case numbers such as P-03-0001 for chemical A and P-03-0002 for chemical B. All other chemicals listed will proceed in that order. Any further correspondence regarding this notice should reference the case number cited in this letter and should be directed to the **New Chemicals Management Branch** at (202) 564-8999.

The submitter of the PMN must provide a Notice of Commencement (NOC) of Manufacture or Import Form to EPA within 30 calendar days of the date the substance is first manufactured or imported for nonexempt commercial purposes. The NOC form can be found at the EPA web site <http://www.epa.gov/oppt/newchemicals/pubs/filenoc.htm>.

The review period is generally three weeks for a provisional risk management decision from the FOCUS meeting. This decision will be posted at the EPA web site at <http://www.epa.gov/oppt/newchemicals/tools/dropstat.htm>. Please check this web site for the status of your submission. You will need your assigned case number; no other identifier will be associated with the submission.

For more information regarding the New Chemicals Program go to <http://www.epa.gov/oppt/newchemicals/>.
